

First Mr. Powell

Sinclair Broadcast Group's recent actions regarding the anti-Kerry schedule program have illustrated the dangers to localism caused by media consolidation.

Now, I understand that, although they are cutting back on this particular program, actually, they are not changing the gist of the political statement.

It's bad enough that we've ended up in a morass in Iraq, and that your father fine reputation has suffered political damage under the Bush/Cheney leadership, but now you are not taking action on what seems definitely to be a political show.

Please do not permit politics to enter so heavily into the FCC. Thank you.
